Proposed Correction Procedure(s):

_____ Eyeliner _____ Lip Liner _____ Other: _____
_____ Eyebrows _____ Full Lips

The procedure for correction or repair of substandard permanent cosmetics is a multi-session process. You may be required to return for several visits before your work is considered complete. Visits are scheduled at 2 to 4 week intervals. The fee for the corrective procedure is \$400.00 for the first visit per procedure (i.e. eyeliner, eyebrows, lip liner, etc.). One touch-up within the first six months is included. All touch-ups thereafter will be charged under our touch-up fee schedule.

This is a corrective procedure and designed to improve the existing substandard permanent cosmetic application. The outcome of the corrective process may not look as good as if it had been applied correctly to begin with, but it will be greatly improved. Because of the way the original technician applied the cosmetics, there are many variables in the corrective procedure.

I authorize Allure (Joseph Roe or any permanent cosmetic technician affiliated with Allure) to apply permanent cosmetic chemicals or medications that apply to this procedure to me. I do not hold Allure liable for any reactions, allergic or otherwise, suffered by me.

The procedure(s) and risks of permanent cosmetics have been satisfactorily explained to me.

I understand the taking of before and after photographs of said procedure(s) is required.

I have read the above statements. I understand and agree to them.
